ANNOUNCER

Global Outfitting is different for each International Worker. Outfits also depend on what country the worker is assigned to. For many workers it is more economical for them to buy items they need in the country they will serve in. They will only take with them items that are not readily available. In other countries very few items are accessible and so the worker must take good supplies with them.

DISPLAY POWERPOINT #9

I trust our little skit gives you an idea of what Global Outfitting is. Will you partner with our International Workers in reaching the lost for Christ by giving financially to Global Outfitting. Thank you
